

## XLH™ Hybrid Electric Upfit

Provides up to a 25% increase in miles per gallon\*

XL Fleet, the leader in connected fleet electrification solutions, gives GM cargo and passenger van fleets a hybrid electric upfit solution that significantly improves fuel efficiency and decreases CO2 emissions. Our revolutionary XLH™ hybrid electric drive system seamlessly installs onto the GM powertrain, transforming your Chevy and GMC vans into hybrid electric vehicles with the same acceleration, better braking, and the original GM warranty intact.

### Fleet-Ready™

XL hybrid systems install quickly and easily onto factory vehicles, so they're ready to work within your existing fleet – with no driver training, special fueling infrastructure or range concerns. The GM powertrain and warranty remain completely intact, and our hybrid component warranty is 3 years / 75,000 miles.

### Big Savings

Our XLH hybrid system delivers up to a 25% increase in miles per gallon\* and significantly decreases CO2 emissions. Drivers spend more time driving and less time refueling at the pump.

### Superior Performance

XL Fleet vehicles drive just like conventional vans in your fleet. Our customers have driven over 100 million miles with XL systems, with no charging infrastructure needed at their facility.

### Cargo & Passenger Vans

- Chevy Express and GMC Savanna 2500/3500 Vans (6.6L engines)
- All wheelbase configurations

Easy integration as a new vehicle upfit or as a retrofit.

\*Actual MPG may vary based on drive cycle and other factors.

## XLH™ Hybrid Electric Drive System

Our hybrid electric technology is charge-sustaining. The hybrid system saves fuel through regenerative braking, a process by which the electric motor helps slow the vehicle during braking to charge the hybrid battery. As the driver accelerates, the hybrid battery releases the stored energy to the electric motor, helping to propel the vehicle.

XLH™ Hybrid System	Specifications
MPG Improvement*	Up to 25%
System Voltage	259V
Battery	Lithium Ion
System Weight	350 lbs
Electronic Speed Governor	Up to 75 MPH
System Torque (Peak)	220 lb-ft (Added at Driveline)
Component Warranty	3-Year / 75,000 Miles

### Intelligent Decisions

Our proprietary, cloud-based, vehicle connectivity platform provides actionable intelligence, including speed, idling, vehicle drive cycle, and CO2 emissions reduction.

\*Actual MPG may vary based on drive cycle and other factors.
